Walgreens Offers Vaccinations to Veterans

The cold and flu season is upon us and the Department of Veterans Affairs has once again teamed up with Walgreens Pharmacies nationwide to allow all veterans who are currently enrolled in the VA healthcare system to be able walk into any of the over 8000 Walgreens nationally (and the Duane Reade pharmacies in the New York metropolitan area) to receive a vaccination at no cost. Vaccinations will be available through March 31, 2017.

Veterans wishing to receive the no cost vaccination simply need to present a Veterans Identification Card and a photo ID, at any participating Walgreens to receive the vaccination.

In addition, after the Walgreens pharmacist administers the vaccine Walgreens will transmit that information securely to VA where it becomes part of the patient's electronic medical record.

VA is committed to keeping Veteran patients healthy, and during this flu season, vaccination is the best way to prevent the spread of flu. No matter where you live, visit your local VA clinic or Walgreens to get a free flu shot.

To find your local VA, visit va.gov/directory/guide/home.asp.

To locate a Walgreens store near you, call 800-WALGREENS (800-925-4733), or go to com/findastore.

To learn more about the partnership, call 1-877-771-8537 or visit ehealth.va.gov/immunization.asp.

Express Scripts News

Your Choice of TRICARE® Retail Pharmacies Changes Dec. 1, 2016

Express Scripts will add Walgreens to the TRICARE retail pharmacy network. CVS pharmacies will no longer be in the network.

Please take action to begin transferring your prescription drugs to a TRICARE network pharmacy by Dec. 1 to avoid paying the full retail price.

What You Need to Know

-

Starting Dec. 1, 2016, CVS pharmacies including CVS pharmacies located within Target stores will leave the TRICARE retail pharmacy network. If you fill a prescription drug at CVS pharmacies after that date, you will pay the full retail price for your drugs.

-

You can transfer your specialty drugs at any time to Rite-Aid or Walmart since they are part of our specialty select network.

-

Beginning Dec. 1, you can fill your prescriptions drugs, including specialty drugs, at Walgreens or Kroger.

Convenient Ways to Transfer Prescriptions

It's easy to transfer your prescriptions to another network pharmacy - just do one of the following:

-

Take your prescription bottles to the new pharmacy. The pharmacist there will contact your old pharmacy.

-

Call the new pharmacy and have them get your prescription drug information from your old pharmacy.

-

Ask your doctor to send your prescription information to the new pharmacy.

Your Pharmacy Options

Your TRICARE pharmacy benefit offers the following convenient pharmacy choices. Select the one that works best for you and your family:

-

Retail Pharmacy

More than 58,000 pharmacy locations remain in the TRICARE network, including other national chains, grocery chains and independent pharmacies. Find retail pharmacies near you by visiting express-scripts.com/TRICARE. Select "Tools" and then "Find a Pharmacy." Or download our free mobile app to find a pharmacy when you're on the go.

On Dec. 1, Walgreens will be included in the pharmacy locator and CVS pharmacies will be removed.

-

Military Pharmacy

Call your military pharmacy, where there is no cost to fill your prescription drug, and ask whether your drug is available. Visit tricare.mil/mtf for contact information for a local military pharmacy.

-

TRICARE Pharmacy Home Delivery

Next to your military pharmacy, Home Delivery is the best option for filling maintenance drugs and you may save money. Formulary generics and standard shipping are free. To learn more, visit express-scripts.com/TRICARE or call 855.778.1417 and a Patient Care Advocate will help transfer your eligible prescriptions.

We're committed to providing the highest level of service to ease this transition. If you have questions about your TRICARE pharmacy benefit or you need help transferring your prescription drugs, please visit express-scripts.com/TRICARE or call 855.778.1417.

TRICARE Expands Coverage for Treatment of Congestive Heart Failure

Congestive Heart Failure is now a covered diagnosis under the TRICARE cardiac rehabilitation benefit.

Heart failure occurs when the heart is unable to pump enough blood to meet the body's needs. This may happen when the heart muscle itself is weaker than normal or when there is a defect in the heart that prevents blood from getting out into the circulation. The American Heart Association lists several signs of heart failure:

- Shortness of breath
- Chronic coughing or wheezing
- Build-up of fluid
- Fatigue or feeling light headed
- Nausea or lack of appetite
- Confusion
- High heart rate

If you are experiencing these symptoms, talk to your health care provider. If you have been diagnosed with heart failure, it's important for you to manage and keep track of symptoms < Caution-
http://www.heart.org/HEARTORG/Conditions/HeartFailure/WarningSignsforHeartFailure/Warning-Signs-of-Heart-Failure_UCM_002045_Article.jsp > and report any sudden changes to your healthcare team.

Providers of cardiac rehabilitation services must be TRICARE-authorized hospitals or freestanding cardiac rehabilitation facilities. All cardiac rehabilitation services must be ordered by a physician.

For more details on what's covered, visit the TRICARE < Caution-

Celebrating 30 Years of thoughtful giving for stronger communities, better lives

Gulf War Syndrome Update

The VA is seeking to expand the time limit that veterans can claim disability benefits for Gulf War Syndrome by five years. In a document to be published in the Federal Register on 17 OCT, the VA seeks to expand the time limit that veterans of the Gulf War may claim disability benefits for the chronic multi symptom illness known as Gulf War Syndrome from December 31, 2016 until December 31, 2021. The VA is inviting the public to comment on their plans by December 18, 2016. The document, with instructions for commenting can be found on the Federal Register website

<https://www.federalregister.gov/agencies/veterans-affairs-department>.

Gulf War Syndrome is defined by the VA as a cluster of medically unexplained chronic symptoms that can include fatigue, headaches, joint pain, indigestion, insomnia, dizziness, respiratory disorders, and memory problems. REfer to Gulf War Syndrome page www.military.com/benefits/veterans-health-care/gulf-war-syndrome.html for more details. There is no medical or scientific evidence about the nature and cause of the illnesses suffered by Gulf War veterans, however the VA says that studies by the National Academy of Sciences proved that these conditions occur in Gulf War Veterans three times more than they do in the civilian population. Based on that fact, the VA grants what it calls "presumptive disability" to veterans suffering from these conditions. Presumptive Disability means that Gulf War Veterans suffering from these conditions don't need to prove their military service caused the health problems in order to receive VA disability compensation.

In their request to extend the time period that veterans may claim disability for Gulf War Syndrome, the VA cited a study done earlier this year by the National Academy of Sciences that stated "at present, there is insufficient basis to identify the point, if any, at which the increased risk of chronic multi symptom illness may abate". That means the symptoms may still show up in veterans more than 25 years after the war's end. In order to provide fairness to affected veterans the VA says they want to continue to provide disability benefits to veterans suffering from Gulf War Syndrome no matter when the illnesses begin.
